

Distinguished guests, President of the Austrian Carinthian WFWP,
Distinguished Members and Ambassadors for Peace

The World Women's Federation for World Peace was founded in 1992 in Korea. The founders were Dr. Hak Ya Han Moon and her late husband Rev. dr. Sun Myung Moon. Working together globally for more than fifty years, they have supported each other in their common quest for peace.

Dr. Hak Ja Han Moon is the leader of a peace movement based on the feminine aspect of human nature. This leadership paradigm comes with a strong commitment to realizing the individual's greatest potential. It works with leaders in various sectors, including heads of state, parliamentarians, academics, scientists, religious leaders and Nobel laureates, to lay the foundations for a just world. By nurturing art, Dr. Moon provides humanity with a tangible experience of peaceful culture. It supports future leaders to become responsible global citizens by providing educational programs for young people who have established themselves at the UN in the year since the WFWP was established. It continues its sincere public message to people on important issues that emphasize women's responsibility to improve humanity. Her approach in all these areas is passed on to future generations. It encourages women and men to transcend their differences and work together as one human family.

This movement was brought to Slovenia in 1993 by Japanese sisters. Since then, we have also carried out the following projects:

through our programs we connect with institutions and groups that bring to society a spirit of cooperation between men and women, work intergenerationally and spread the spirit of maternal love.

In Ljubljana and its surroundings, more than 500 teenagers from primary and secondary schools and youth homes attended our lectures and workshops entitled "Education for Good Character".

We organize various cultural and humanitarian programs in homes for the elderly and in Safe Houses.

We organized international meetings "Women build bridges of peace" in various places in Slovenia (Austria, Italy, Croatia, Hungary, Germany).

We have also been present at international conferences across Europe.

We are participating in the nomination of new "Ambassadors for Peace", which also includes mayors of Slovenian municipalities and political figures.

Within the UN, we held the founding conference of the global network of women for peace in Slovenia, where we connect women leaders who work in the local environment.

We have 23 active members, to whom I am most grateful, because without them I would not have had these successes. I also congratulate everyone on their 30th anniversary and wish them many new ideas and joint cooperation.

Dear guests, I wish you a pleasant stay with us.

Thank you very much

Spoštovani gostje, predsednica avstrijske koroške WFWP, cenjene članice in ambasadorji za mir

Svetovna ženska federacija za mir v svetu je bila ustanovljena leta 1992 v Koreji. Ustanovitelja sta bila dr. Hak Ya Han Moon in njen pokojni mož Rev. dr. Sun Myung Moon. S skupnim delom na globalni ravni sta več kot petdeset let podpirala drug drugega v njunem skupnem prizadevanju za mir.

Dr. Hak Ja Han Moon je voditeljica mirovnega gibanja, ki temelji na ženskem vidiku človeške narave. Ta vodstvena paradigma prihaja z močno zavezanostjo uresničevanja največjega potenciala posameznika. Sodeluje z voditelji v različnih sektorjih, vključno z voditelji držav, parlamentarci, akademiki, znanstveniki, verskimi voditelji in Nobelovimi nagrajenci, da bi postavila temelje za pravično besedo. Z negovanjem umetnosti želi dr. Moon človeštvu zagotoviti oprijemljivo izkušnjo mirne kulture. Podpira bodoče voditelje, da postanejo odgovorni globalni državljani, tako, da nudi izobraževalne programe za mlade, ki so se v letu dni po ustanovitvi WFWP uveljavili v OZN. Nadaljuje svoje iskreno javno sporočilo ljudem na pomembnih vprašanjih, ki poudarjajo odgovornost žensk za izboljšanje človeštva. Njen pristop na vseh teh področjih prehaja v prihodnje generacije. Ženske in moške spodbuja, da presežejo svoje razlike in delajo skupaj kot ena človeška družina.

V Slovenijo so leta 1993 to gibanje prinesle japonske sestre. Od takrat smo tudi me izpeljale sledeče projekte:

z našimi programi se povezujemo z institucijami in skupinami, ki v družbo prinašajo duh sodelovanja med moškimi in ženskami, delujemo medgeneracijsko in širimo duh materinske ljubezni.

V Ljubljani in njeni okolici je na naših predavanjih in delavnicah z naslovom »vzgoja za dober karakter« prisostvovalo več kot 500 najstnikov iz osnovnih in srednjih šol ter mladinskih domov.

V domovih za starejše in v Varnih hišah prirejamo različne kulturne in humanitarne programe.

V različnih krajih po Sloveniji smo organizirale mednarodna srečanja »Ženske gradimo mostove miru« (Avstrija, Italija, Hrvaška, Madžarska, Nemčija).

Prisotne smo bile tudi na mednarodnih konferencah po Evropi.

Sodelujemo pri nominaciji novih »ambasadorjev za mir, kjer so vključeni tudi župani in županje slovenskih občin in politične osebnosti.

Izpeljale smo znotraj OZN ustanovitveno konferenco globalne mreže žensk za mir v Sloveniji, kjer povezujemo ženske voditeljice , ki delujejo v lokalnem okolju.

Imamo 23 aktivnih članic ,katerim se najlepše zahvaljujem, kajti brez njih ne bi imele teh uspehov. Vsem tudi čestitam ob 30 obletnici in želim še veliko novih idej in skupnega sodelovanja.

Vam dragi gostje pa želim prijetno druženje z nami.

Hvala lepa

Zdravica

Naj tokrat uporabim besede matere miru , ki pravi:

"Zgodovina kliče po spravi, sočutju, ljubezni, služenju in žrtvovanju. Danes problemov ni mogoče rešiti z logiko moči.

Naše sedanje težave je mogoče rešiti le z logiko ljubezni.

Sedaj pa želim ,da vsi skupaj nazdravimo na našo 30 obletnico ustanovitve,

Pri negovanju miru v sebi in širjenju le tega navzven nismo sami. Vsi ljudje smo ljubljene od našega stvarnika, ki je naš nebeški starš.
